

Ride the World

Distant Point South!

Distant Point South!
-Endpoint South Africa-

Invitation for sponsorship and joint participation in the project:
RIDE THE WORLD – DISTANT POINT SOUTH!

Journey from Serbia to the southernmost point of South Africa and the African continent

Dear Sirs,

My name is Slobodan Vukojevic, I was born on 09/09/1970 in Belgrade, and I am a world motorcycle traveler by trade.

So far I travelled across the following continents on my motorcycle: North America (U.S.A. and Canada), Europe and Asia (Ukraine, Mongolia, Russia – Siberia to Vladivostok).

My previous travels took place on the American, European and Asian continent.

The start of my journey was in San Diego (U.S.A.) and continued across the entire western part of North America and the eastern part of Canada.

My Eurasian route started in Vrnjacka Banja, Serbia and ended in Vladivostok, Russia, and I covered approximately 17,000 km.

The project for the motorcycle ride to the southernmost point of Africa covers approximately 13,000 km and I plan to complete it within the time period of three to four months.

I will go on the road on a specially equipped Honda Africa Twin 750cm² motorcycle, and I will carry an assortment of multimedia and photo equipment: Canon EOS REBEL T21, with additional gear (tripods, optics, batteries, battery chargers), as well as a Contour ROAM camera-camcorder with HD resolution, which will be fixed on the protective helmet during the ride.

This travel project is very demanding, both physically and mentally. It is more challenging than the routes I previously took. Besides my readiness to subject myself to mental and physical strain, the project demands material support to prepare the technical conditions for the trip (fuel, spare parts, equipment and food).

That is why I address you, people of good will and companies that can find their own marketing and promotional interest in my project, through various forms of sponsorship and cooperation, either through material support or the provision of spare parts, equipment or any kind of logistic help on the road.

I secured part of the funds myself, but your help in the form of a donation or sponsorship would significantly help me and ease the hardships of a very demanding journey to the southernmost point of the African continent.

The entire project, travel preparations, as well as the departure will be covered by the Serbian electronic media, Internet websites and on social networks.

I am also prepared to listen to your suggestions for cooperation and I am open to any agreement that would be in the function of a successful conclusion of the project of the journey to the southernmost point of the African continent.

In the case we reach an agreement, I will deliver to you all of the photographs and video recordings from the journey. The flags and stickers of your company will be on the photographs from Southern Europe (Serbia, Bulgaria, Turkey) and Africa (Egypt, Sudan, Ethiopia, Kenya, Tanzania, Zambia, Zimbabwe, South Africa) as a noteworthy advertisement and marketing promotion of our sponsors as well as our country.

In the expectation of your positive response to my invitation for cooperation and joint journey to the southernmost point of the African continent, I give you my e-mail address, telephone number and Facebook address, as well as my kindest regards!

Yours sincerely,

Slobodan Vukojević – World motorcycle traveler
